Pune, Maharashtra, India – 411018

Professional Summary

I am Rohit Mane, a dedicated third-year Artificial Intelligence and Data Science engineering student with a 9+ CGPA and strong skills in Data Structures and Algorithms, C++, Python, MySQL, AI, and Data Science concepts. Passionate about problem-solving, software development, and data-driven solutions, with strong communication, analytical, and teamwork skills. Quick learner with hands-on experience through academic and real-world projects.

Education

Dr. D. Y. Patil Institute of Technology, Pune	2023 – 2027
<i>B.E. – Artificial Intelligence & Data Science</i>	CGPA: 9.12 / 10
Ligade-Patil Junior College of Science, Karad	2021 – 2023
<i>Higher Secondary Certificate (HSC) – Science — MSBSSHSE</i>	82%
Shantiniketan Lok Vidyapeeth, Sangli	Completed 2021
<i>Secondary School Certificate (SSC) — MSBSSHSE</i>	92%

Technical Skills

Languages: Python, C++, Dart (Flutter), SQL, HTML, CSS

AI / ML: scikit-learn, XGBoost, Random Forest, NLP, Sentiment Analysis, Feature Engineering, Computer Vision, LLMs

Data Engineering: Pandas, NumPy, Matplotlib, Seaborn, MySQL, Microsoft Excel, End-to-End ML Pipelines.

Tools & Platforms: Git, GitHub, n8n, REST APIs, Google Vision OCR, Twilio, Amazon Connect, Canva, TMDB API

CS Fundamentals: Data Structures & Algorithms, OOPs, Operating Systems, Workflow Automation, Research Papers

Internship & Training Program

Summer Intern – CEI '26 **Jun 2026 – Present**

Celebal Technologies | Microsoft-Certified Data & AI Partner *Remote*

- Selected for the **Celebal Engineering Internship (CEI '26)** – a competitive, structured 2-month programme at one of India's premier Data & AI firms, working with **enterprise-grade tech stacks** and real-time industry tools used by global clients across the US, Europe, and Singapore.
- Gaining hands-on project experience under **domain-specific mentorship** from industry professionals, bridging academic knowledge with corporate practice – with top performers eligible for a **Pre-Placement Offer (PPO)**, Celebal's proven internal hiring pathway.

Employability Skill Development Program

2026

Zensar Technologies & RPG Foundation

- Completed an industry-oriented Employability Skill Development Program conducted by Zensar Technologies and RPG Foundation.
- Developed communication, teamwork, problem-solving, aptitude, and interview preparation skills.
- Enhanced professional and workplace readiness skills through structured training sessions.

Projects

Rapid Intensification (RI) Prediction – | *Python, XGBoost, scikit-learn, NOAA* | [GitHub](#) **2024–25**

- Built an end-to-end ML pipeline on **416K+ NOAA IBTrACS records** using **Random Forest & XGBoost** to predict tropical cyclone rapid intensification (RI) events.
- Engineered domain-specific meteorological features and handled severe **class imbalance (1.7% RI)**, achieving **AUC-ROC of 0.916** and **75% event detection rate**.
- Successfully validated on **Hurricane Patricia (2015)**, achieving **95% RI probability prediction**, demonstrating real-world generalisability.

NutriBot – Food Label Analyser | *Flutter, Python, Google Vision OCR, NLP* | [GitHub](#) **2024**

- Developed a cross-platform app that uses **OCR and image processing** to scan packaged food labels, extracting nutritional values and ingredient lists automatically.
- Evaluates products against **Singapore's food rating standards**, assigning health grades **A–E**, and provides weekly/monthly consumption recommendations for informed dietary decisions.

Movie Success Prediction & Sentiment Study | *Python, NLP, scikit-learn, TMDB API* | [GitHub](#) **2025**

- Engineered a full-stack data science system combining **ML regression, NLP-driven sentiment analysis**, and live **TMDB API** integration to predict box office revenue.
- Deployed an **interactive dashboard and REST API** for real-time movie success predictions, complete from data ingestion through model serving.

N8N Automation Agent for Call Centres | *n8n, Twilio, Amazon Connect, CRM, Google API* **2025**

- Designed and deployed an **n8n-based intelligent automation agent** integrating **Twilio** telephony, **Amazon Connect**, and AI speech/text for BPO/call-centre workflows.
- Automated ticket routing, CRM updates, and client data capture – enabling secure, scalable, and intelligent end-to-end client interactions.

Certifications

Data Science Certification <i>CodeWithHarry</i>	2025
Completed a job-ready Data Science course covering Python, data analysis, visualisation, statistics, ML, Scikit-Learn, ANN, RAG, and Git with practical, hands-on projects.	

Achievements

Two-Time Consecutive Winner – “Tech Navinyana” College-Level Project Competition	2024, 2025
Runner-Up, Kho-Kho – COEP Zest Inter-College Sports Tournament	2025
Two-Time Winner, Kho-Kho – DPU Karandak Annual Sports Fest	2024, 2025
Academic Excellence – Consistent 9.0+ CGPA (Current: 9.12/10) in AI & Data Science	2023–Present

Positions of Responsibility & Extracurricular

Design Co-Lead	2024 – Present
<i>S4DS – Society for Data Science (College Chapter), DYPIT</i> - Lead design strategy and digital presence for the college chapter of a national data science society, managing a campus-wide team of designers and developers. - Organised workshops, speaker sessions, and data science events to cultivate a strong tech community across campus.	
Sport Committee Member	2024
<i>College Sports Cell, DYPIT</i> Coordinated intra-college sports events and trials, managed equipment records, and promoted campus-wide student participation through structured scheduling and communications.	

Personal Interests

- Sports & Teamwork:** Active cricket and Kho-Kho player; fosters team spirit and strategic thinking.
- Problem Solving:** Enjoys hands-on repairing and tinkering with everyday mechanical and electronic items.
- Cultural Exploration:** Passionate traveller; discovers new places and learns about local specialties and history.
- Networking & Collaboration:** Enthusiastic about building collaborative professional relationships and exchanging ideas.
