ROHIT VIPUL MANE

B.E. - Artificial Intelligence & Data Science

Ph: +91-7588058850

Email: drohitmane07@gmail.com

Pune, Maharashtra, India - 411018

LinkedIn: https://www.linkedin.com/in/rohitmane45

EDUCATION

Dr. D. Y. Patil Institute of Technology — 2023 - 2027

B.E. - Artificial Intelligence & Data Science | CGPA: **9.12** / **10**

Ligade Patil Jr College Of Science,Karad — 2023

12th | MSBSHSE | Percentage: **82** / **100**

Shantiniketan Lok Vidyapeeth ,Sangli, Sangli — 2021

10th | MSBSHSE | Percentage: **92** / **100**

INTERNSHIPS

Elevatelabs | IT / Computers - Software — 08 Dec, 2025 - 23 Jan, 2026

Data Scientist

Worked with Excel, Python, and SQL to clean, analyze, and visualize real-world datasets. Delivered business insights through dashboards and reports and was recognized as Best Performer for analytical excellence and professionalism.

PROJECTS

food-label-analyzer — 20 May, 2025 - 10 Dec, 2025

Team Size: 5

Key Skills: Flutter | Python | OCR | NLP | Mobile Application Development | Web Development

Project Link: https://github.com/rohitmane45/food-label-analyzer

Developed a smart food analysis system that scans packaged food labels to extract nutritional values and ingredient information using OCR and image processing techniques. The system evaluates food products based on Singapore's food rating standards and assigns a health rating from A to E. It also provides weekly and monthly consumption recommendations to help users make informed dietary decisions. The project focuses on simplifying complex nutrition labels into clear, actionable health insights for consumers.

N8N Automation Agent for Call Centers

Key Skills: N8N | Google API | API | AI | Workflow

Designed and implemented an n8n-based agent that automates call center/BPO workflows by integrating telephony APIs (Twilio, Amazon Connect), AI speech/text, and CRM—enabling secure, streamlined, and intelligent client interactions.

Rapid Intensification (RI) For Tropical Cyclone Tracking System

Key Skills: Models | ML | NASA | Matplotlib | Python

Project Link: https://github.com/rohitmane45/Rapid-Intensification-RI-For-Tropical-Cyclone-Tracking-System

Cyclone Rapid Intensification Tracking System – Developed an end-to-end ML pipeline using Random Forest and XGBoost to predict tropical cyclone rapid intensification from NOAA IBTrACS data (416K+ records). Engineered meteorological features, addressed severe class imbalance (1.7% RI), and achieved AUC-ROC of 0.916 with 75% event detection. Successfully validated on Hurricane Patricia (2015) with 95% RI probability prediction.

Movie-Success-Prediction-and-Sentiment-Study

Key Skills:

Machine Learning | Scikit-Learn | Data Science | Matplotlib | API | LinkedIn | Web Scraping | Data Processing

Project Link: https://github.com/rohitmane45/Movie-Success-Prediction-and-Sentiment-Study

Developed an end-to-end Python-based data science project that combines machine learning, NLP-driven sentiment analysis, and real-time TMDB API integration to predict box office revenue, uncover what makes movies succeed, and deliver live predictions through an interactive dashboard and REST API.

ASSESSMENTS / CERTIFICATIONS

Data Science

Key Skills: Machine Learning | Data Science | Scikit-Learn | Matplotlib | Git | Github | Rag | Artificial Neural Networks

Data Science Certification – CodeWithHarry (2025)
Completed a job-ready Data Science course covering Python, data analysis, visualization, statistics, and machine learning with practical, hands-on learning.

POSITIONS OF RESPONSIBILITY

Design Co-Lead, S4DS (Society for Data Science)

Manage design and web presence for the college's chapter of the national data science society, leading a campus-wide team

Sport Committee Member (DIT)

Coordinated college sports events and trials, maintained equipment and records, and promoted participation through calendars, notices, and intra-college competitions.
